

**ITA TUNNELLING  
AWARDS 2024**

**10 YEARS ANNIVERSARY**

in collaboration with

**Società Italiana Gallerie**  
Italian Tunnelling Society

## ITA Awards – A window on where we are headed

More than celebrating the best-of-the-best, the ITA Tunnelling Awards each year are an indication of:

- Where the industry is heading and how technology is advancing
- Where and how significant underground infrastructure projects are shaping societies
- How the procurement, planning, design, construction, operation and renovation of underground infrastructure is evolving; and of
- How the new generation of young engineers are seeing the world and its future needs and demands.

The ITA Awards are the single most important **eye on the future** for the underground infrastructure industry.

Be part of the ITA Awards symposium on 28 November 2024 to support the entries from your country and applaud the achievements of the global industry through a programme of presentations and discussions with the shortlisted finalists in each Award category.

More than 100 entries from 19 countries are being evaluated to identify the finalists of seven categories. Countries represented are (in alphabetical order): Australia, Austria, Belgium, Canada, China, Colombia, Denmark, Finland, France, Greece, Hong Kong, India, Iran, Israel, Italy, Kazakhstan, Netherlands, New Zealand, Norway, Pakistan, Philippines, Poland, Qatar, Singapore, South Africa, South Korea, Spain, Switzerland, Turkey, UK, USA.

Hosted this year in Genoa, Italy, by ITA Member Nation society SIG, Società Italiana Gallerie, the ITA Awards symposium on 28 November is followed by the SIG Conference on 29 November and a technical site visit to the Terzo Valico dei Giovi highspeed railway project construction site on Saturday 30 November.

Registration for both events is now open at €350 for the Awards Symposium day and gala celebrations and €369 (inc. VAT) for the SIG Conference and gala dinner, with a 15% discount to register for both conference days (excluding the gala dinners). Being in Genoa in November will be your opportunity to engage with leaders of the major projects of the world and with senior directors of the extraordinary projects being undertaken through the European Alps including [TELT](#), Lyon-Turin highspeed railway project between France and Italy; the [Brenner Baseline](#) highspeed railway between Austria and Italy and the Italian [Terzo Valico dei Giovi](#) highspeed railway project and other rail and highway projects in the Genoa area and throughout Italy.

### ITA Tunnelling Award Categories and Entries

- > **Major Project of the Year - €500 million+**  
12 projects from 8 countries
- > **Project of the Year - €50-€500 million**
